PREFACE

Jammu and Kashmir FRBM Act, 2006 has been passed by the erstwhile StateGovernment on August 9, 2006 as per the recommendations of 12th Finance Commission.

Three major objectives of the FRBM Act:

- To make the Government responsible to "ensure inter generational equity in fiscal management" implying that borrowings are nothing but deferred taxation and the government's living beyond their means leave a burden of debt on future generations.

- To make the Government responsible for ensuring "long term macroeconomic stability" because reckless borrowings by government crowds out private investmentor fuels inflation or leads to balance of payment crises eventually leading to macro- economic instability.

- To make the Government responsible for removing "fiscal impediments to the effective conduct of monetary policy" because unsustainable increase in deficit constrains the RBI's ability to control money supply as the RBI also happens to be the debt manager of the government.

The three planks of strategy in-built in the FRBM Act:

- Limits on government borrowing under a time bound programme to altogether eliminate revenue deficit and bring down fiscal deficit to prudent limits.

- Bringing a medium term perspective in Budget planning through the introduction of certain statements to accompany the budget document.

- Improving transparency in the fiscal operations of the government in order to avoid any window dressing in meeting the deficit targets as well as improving fiscal discipline.

The following statements are to be laid before the Parliament along with the Annual Financial Statement in pursuance of the Fiscal Responsibility and Budget Management Act, 2006:-
