## **INTRODUCTION TO CLEAN ENERGY TRANSITION TOWARDS NET ZERO TARGET**

**18 TO 22 AUGUST 2025**

Jointly sponsored by the

**SINGAPORE COOPERATION PROGRAMME**

and the

**JAPAN INTERNATIONAL COOPERATION AGENCY**

under the

**JAPAN-SINGAPORE PARTNERSHIP PROGRAMME FOR THE 21<sup>ST</sup>  
CENTURY**

to be conducted by

**TEMASEK POLYTECHNIC**

---

### **Singapore Cooperation Programme**

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, more than 155,000 officials from more than 180 countries, territories and intergovernmental organisations have participated in our courses and study visits. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

### **Japan International Cooperation Agency**

The Japan International Cooperation Agency (JICA), one of Japan's Official Development Assistance (ODA) implementing bodies, has been extending technical cooperation in human resource development to facilitate the autonomous, sustainable development of developing countries since its establishment in 1974. From 2008, JICA was further strengthened to incorporate all activities of Japan's Official Development including concessional ODA loans and grant aid in an effective and efficient manner.

JICA will enhance the impact of assistance through (a) A More Strategic Framework to achieve medium-to-long term development goals of developing countries (b) More Predictable Aid as operational "rolling" plans will be utilised in policy dialogue with developing countries (c) Speedier Project Formulation through "Preparatory Survey" to ensure flexibility and speed at the project preparation stage (d) Assistance Tailored to Real Needs: Synergy of Aid Schemes to offer assistance that most effectively addresses the needs of developing countries.

## Japan-Singapore Partnership Programme for the 21st Century (JSPP21)

As countries whose prime resources are their people, Singapore and Japan believe that human resource development is important for economic and social progress. With this mutual understanding, Singapore and Japan signed a Memorandum of Understanding in January 1994 to train participants from developing countries by sharing each country's expertise and experience from their economic development under the Japan - Singapore Partnership Programme (JSPP).

The Japan - Singapore Partnership Programme for the 21st Century (JSPP21) was established through a Memorandum of Discussion (MOD) signed in May 1997, to signify a widening of the scope of technical cooperation between Singapore and Japan. Since then, the MOD has been renewed three times, most recently in December 2018.

With a view to enhancing ASEAN integration and sharing the two countries' experience in their areas of expertise, both governments recognised, as areas of priority, training and capacity building for third countries in the fields of (a) security and peace, (b) addressing vulnerability, (c) private sector development, (d) connectivity, and (e) smart initiatives.

Since 1994, Singapore and Japan have implemented close to 400 training courses for more than 7,000 participants in diverse fields such as public governance, trade promotion, climate change and environment, community policing, disaster management, maritime navigation, tourism, and urban planning.

## Temasek Polytechnic

Established in 1990, TP is one of the leading institutions of higher learning in Singapore. Currently it offers [36 full-time diploma courses](#) in the areas of applied science, business, design, engineering, humanities & social sciences and informatics & IT. It also offers [over 40 part-time courses](#), up to specialist diploma level. TP students undergo a holistic learning system that combines hands-on experience, character education and relevant life skills, in an enriching learning environment.

The Polytechnic has also infused global realities into its programmes and developed a mindset on campus that embraces socio-cultural diversity. Believing in the possibilities of tomorrow, Temasek Polytechnic is committed to co-creating a better world with its

stakeholders by nurturing the next generation of values-centred leaders, lifelong learners and future-oriented creators.

## Course Objectives

This course seeks to provide an overview of renewable and low carbon energy technologies, with a focus on the use of hydrogen and waste-derived renewable fuels as green fuels. Participants will also learn more about Singapore and Japan's approaches towards research and adoption of green fuels.

## Synopsis

Topics to be covered include:

- Mechanisms of global warming
- Evaluating renewable and low carbon energy technologies
- The use of hydrogen and waste-derived renewable fuels, including challenges in establishing a hydrogen economy
- Singapore's and Japan's approaches towards research and adoption of green fuels

## Methodology

This course will be delivered for up to **30 participants**. It will include lectures, group discussions and Q&A sessions.

Participants should bring along their own internet-enabled learning devices such as laptops or tablets (mobile phones are not recommended) for this course.

## Course Duration and Venue

The course will be held over 5 days from **18 to 22 August 2025** in Singapore.
