Besides, market volatility, domestic resource mobilisation and capital flows issues were also discussed by the Council.

4. The Council noted that the COVID-19 Pandemic crisis poses a serious threat to the stability of the global financial system as

the ultimate impact of the crisis and the timing of recovery, is uncertain at this point of time. While, decisive monetary and fiscal policy actions aimed at containing the fallout from the pandemic, have stabilised investor sentiment in the short-run, there is a need to keep a continuous vigil by Government and all regulators on the financial conditions that could expose financial vulnerabilities in the medium and long-term. The efforts of the Government and regulators are focussed on avoiding a prolonged period of dislocation in financial markets.

5. The Council took note of the initiatives taken by the Government and the regulators in the recent months to help revive the economy. Government and the RBI have announced various fiscal and monetary measures to pre-emptively limit the economic damage and would continue to address the liquidity and capital requirements of the financial institutions.

6. The Council also reviewed the action taken by members on the decision taken by FSDC earlier.
