I am from below average low income group middle class family. To earn money to meet out my child education fee and medical fee for my elder parents, I planned to invest money through share trading with the advice of my friends.

I have invested Rs.80,000/- under the sub broker mentioned above.

He orally assured that you will receive minimum 10% of the investment in every month and accordingly I have invested in the name of proficient commodities under the sub broker Mr. jayachandran Chennai.

On 24.12.2015 surprizingly found through mail that you have the available margin of Rs. 758/- in my account. Immediately after finding the mail I called Mr.Jayachandran for the above drastic reduction of my amount.

He told me that your fund has lost due to improper working of software through proficient commodities.

I would like to bring to your kind notice the following

1. They didn't give the username and password for the trading account
2. Jayachandran has handled all my account transactions
3. Annual payout was not made and preceeded further.
4. They did the share trading without my concern and advice.
5. Now I think there is no official authentication for using the trade software for jayachadnran
6. Like us many poor people have invested and suffered.

Kindly do the needful.

Thanking you.

Yours faithfully,
S.Chellapandian
